

Winter Reminders for School Dropoff and Pickup

- **Keep your car windshield and windows clear of snow and ice.**
- **Drive slowly around school zones!** This will give you more time to stop even with snow and ice on the roads.
- **Stay clear of the “busses only” areas at your school.**
- **Stop signs are NOT acceptable places to drop off or pick up students.**
- **Make sure your kids wear the proper winter clothing** to ensure a safer and warmer commute, no matter how long they’re outside.
- **Remember to communicate the school dropoff and pickup procedures with any other adults** who help get your children to and from school.
- **Remember, if it’s colder than 0° F, there will be no crossing guards out to help students**, so it’s everyone’s responsibility to watch for students crossing safely.
