

Cannabis Safety Card

Children should not consume **any** amount of cannabis that is not medically prescribed to them.

Signs of THC Poisoning:

- Extreme confusion or anxiety
- Paranoia or panic
- Fast heart rate or increased blood pressure
- Delusions or hallucinations
- Severe nausea or vomiting
- Extreme drowsiness

**Poison
Control
Center
Hotline:**

1-800-222-1222

AVOID ACCIDENTAL POISONING

- Store cannabis away from children and pets – **locked away in a cabinet, medicine box, or safe.**
- Talk to family, friends, and caregivers. Ask anyone whose home your children visits to store THC edibles and other drugs safely.
